

Resilience • Persistence • Success

## Technology Requirements + Student Data Security

1. All students will need a school email to participate in the program- grades 6-12. It is also recommended they have headphones for viewing videos.
2. Schools will have the option to input student information through our online referral tool or a csv file. (SSO available with technology fee)
3. Once enrolled, students are sent an email on the first day of their program. This email has a link to the EmpowerU platform so they can get started right away. Referring staff and parent/caregiver will be copied.
4. **Whitelist domains**
  - a. In order to ensure no issues with EmpowerU - the following website domains should be whitelisted for the district:
    - myempoweru.com
    - \*.intercom.com
    - \*.fontawesome.com
    - fonts.googleapis.com
    - fonts.gstatic.com
    - \*.empoweru.com
    - \*.intercom-mail.com
    - \*.fontawesome.com
    - \*.w.org
    - \*.gmpg.org
    - \*.cloudflare.com
    - \*.youtube.com
    - \*.youtube.com/channel/UCIRUOnJPSUpER9pCBZrbqSg
    - \*.googleforms.com
5. **Whitelist email domains**
  - a. Students will need to be able to receive emails from:
    - i. myempoweru.com,
    - ii. Intercom.com
    - iii. outbound.intercom.myempoweru.com,
    - iv. intercom-mail.com.
6. EmpowerU is built using WordPress, and student level data is transferred either via secure email or via our platform. To review all student fields required, please see our [upload template](#). For data transferred via the platform, transfer is secured via SSL (SHA-256 with RSA Encryption).

7. At rest, all passwords are encrypted via hashing.
8. Individual student-level summary data from the platform is shared back with a district and school on a weekly basis. At year-end, student data is shared in aggregate, with analytics on student progress in increasing their confidence, resilience, and motivation.
